To All Valued Water Customers:

This notice will advise you that the Municipal Authority of the City of New Kensington is installing new water meters with radio transmitters. Over the next year, Newman Plumbing Inc. of Zelienople, PA will be performing this work throughout our entire service area. A representative of Newman Plumbing Inc. will be contacting you to schedule an appointment. The commercial accounts will be completed first, along with any vault installations followed by the residential accounts. Please have the area around the water meter cleared, and your plumbing working properly, so that the contractor can perform their work. Also, if you have a vault, make sure the vault is accessible and free of debris including standing water. Please note that if we are unable or unsuccessful in arranging a schedule for the water meter installation, we will have no choice but to commence water turn-off proceedings, in accordance with our rules and regulations.

Newman Plumbing Inc. will begin this work the week of February 16. They can be reached toll free at 1-888-437-0078. All employees of Newman Plumbing Inc. will be carrying identification so that you know who they are and why they are at your residence.

If you have any questions, or concerns, about the identification of the Newman Plumbing Inc. representatives, please call the Municipal Authority office at 724-337-3577. Thank you for your time and cooperation in helping the water meter replacement program go smoothly .
